KEEP GOING

2019 ANNUAL REPORT

DEAR TEAM GOALS,

What a spectacular year that we had amidst the hardships and difficulties that Haiti experienced and is still facing. As much of the country was shut down due to “Peyi Lok” a lock down that affected the whole country we were able to provide our daily programs to over 400 kids in rural Haiti.

This opportunity to give access to sport and education in a safe environment means everything to our kids who otherwise would be left with no positive outlet for their energies. They come to our programs through their love of soccer/football and end up learning important life lessons on conflict resolution, inclusion, health education and gender equality.

I love it when I get to hear directly from our kids that GOALS taught them how to make good decisions for their health, wellbeing and future.

It was an absolute thrill and honor to have accepted two big awards for our work this year; the Beyond Sport Award for Health and Wellbeing plus the Peace and Sport award for best Nonprofit organization using sport for Peace and Development. The proudest moment was seeing our work recognized with our youth shown and heard on the world stage.

When asked what we attribute our success to I replied we keep going, in Kreyol we like to say “Kenbe Fem” meaning stay strong. This work takes a huge commitment and dedication and we stay motivated because we know firsthand what an impact together, we are making for the kids and their future. Thank you for being a part of Team GOALS.

PROGRAMS

GOALS uses soccer in Haiti to engage youth and their families in programs that emphasize education, health and the environment to improve their quality of life on a daily basis. Through leadership development and social change initiatives we are creating stronger, healthier communities in rural Haiti.

The love of soccer brings the kids to our programs. We provide a safe space and the coaches for daily soccer practice, mentoring, education, and nutritional support for approx. 400 kids in rural Haiti. 90% of our kids had not played sports before our programs.

EDUCATION

The opportunity to attend classes and learn is a source of immense pride for the kids and their families. The 'Leveling the Playing Field' literacy project teaches literacy and numeracy to kids that otherwise would be left behind. To date, 157 children and 20 adults have successfully completed the program, each achieving measurable progression in learning.

DREAM TEAM

Our Dream Team scholarship program provides tuition, uniforms and books for 25 high school students each year. For many families sending a child to school is the highest priority but is also an expensive choice that is prohibitive for their daily subsistence living.

“When we come to play football, the stress goes away. We come together to play and it is good for our health and our physical development. It motivates us to have an objective. We learn how to play football and the principles of football teach us to have respect and discipline. Everyone is looking for a better path in life and we now have the opportunity to go after what we want.”

157 TOTAL LITERACY GRADUATES TO DATE (43 IN THE 2019 CLASS)

COMMUNITY SERVICE

As part of taking part in our programs the kids volunteer in their community and it is one way they can give back. Service projects include beach cleanup, recycling, gardening, and repairs. They learn the value of service and engage with their teammates in projects that enrich their local community.

GOALS is an organization that uses football to teach principles on community development. As a former player with GOALS I now can give back. It has changed my life. I am happy to participate in their activities to help the community to advance."

MISSION

GOALS advances youth leadership through soccer and education to create stronger, healthier communities in rural Haiti.

VISION

We envision a future in which every child in rural Haiti can realize their potential and follow their dreams.

We value our partners. Together we are a strong network striving for the same objectives.
